

## **VETERINARY SURGEONS USING COMPLEMENTARY THERAPIES**

### **FACT SHEET 27**

#### **INTRODUCTION**

The following is a list of veterinary surgeons who routinely use complementary therapies, including homeopathy, acupuncture, Bach Flower Remedies, diet, nutraceutical supplements and herbal medicine. The list is not extensive and some of the practices listed may not be able to offer the exact therapy you require. There are also many other veterinary surgeons, not listed, who incorporate natural therapies into their general practices. For more information, it is best to contact the specialist organisations listed at the end of this fact sheet. All the vets listed below are qualified in veterinary homeopathy. The date of qualification (in homeopathy) is shown in brackets.
